

57CS

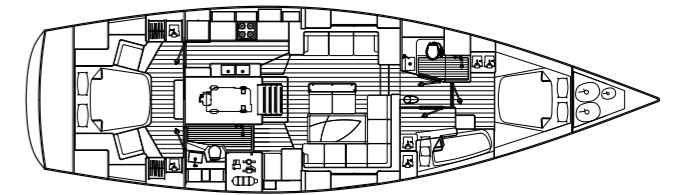

When the history of Contest Yachts is written, 2010 is likely to be remembered as the year of the 57CS. The first example of this superlative all-new yacht will be unveiled in September at the Amsterdam in-water Boat Show, setting a new standard for fast luxury performance cruisers in this size bracket. With its flush deck and low, integrated superstructure, the Contest 57CS has a truly striking appearance. Daylight floods into the interior through the large windows, generating an exceptionally pleasant atmosphere. Another highlight of this stunning new design is the spacious cockpit with its twin steering position and free passage to the interior. Optional features on the 57CS include an integrated swim platform, while a smart operational concept allows the yacht to be sailed single-handedly if desired.

57CS
